## INDEPENDENT AUDITORS' REPORT

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Castro County, Texas, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise County's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Castro County, Texas, as of September 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (pages 3 – 7), the schedules of revenues, expenditures and changes in fund balances – budget and actual – for the general and road and bridge funds; the schedule of changes in net pension liability and related ratios, and the schedule of employer contributions (pages 39 – 48) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Castro County, Texas's basic financial statements. The combining nonmajor and agency fund financial statements listed under other supplementary information in the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining nonmajor and agency fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor and agency fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

## **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2021, on our consideration of Castro County, Texas's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Castro County, Texas's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Castro County, Texas's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**

As management of Castro County, we offer readers of Castro County's financial statements this narrative overview and analysis of the financial activities of Castro County for the fiscal year ended September 30, 2021.

**Financial Highlights**

**Government-Wide Financial Statements**

- The assets of Castro County exceed its liabilities at September 30, 2021 by \$8,557,177 (net position). Of this amount \$1,090,651 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors, \$1,062,924 (restricted net position) legally must be used for expenditures for specified purposes, such as library, juvenile probation, etc., and \$6,403,602 of the County's equity is invested in capital assets, net of related debt.
- The County's total long-term debt outstanding at September 30, 2021 was \$4,200,000.
- The net position (equity) of the County increased by \$1,134,662 during the 2021 fiscal year.

**Fund Financial Statements**

- As of September 30, 2021, Castro County's governmental funds reported combined ending fund balances of \$2,794,102. This fund balance reflects an increase of \$872,820 for the current year. Approximately 46.82% of fund balance \$1,308,174 is available for spending at the government's discretion.
- As of September 30, 2021 non-spendable fund balance consisted of \$59,764 for prepaid expenses; restricted fund balance and fund balance committed special funds was \$1,426,164.

**Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to Castro County's basic financial statements. Castro County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

**Government-Wide Financial Statements**

The statement of net position presents information on all of Castro County's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Castro County is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

The government-wide financial statements reflect functions of Castro County that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of Castro County include administrative, judicial, legal, public facilities, public safety, public services and road and bridge.

The government-wide financial statements can be found on pages 8 – 9 of this report.

## **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Castro County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Castro County can be divided into two categories: governmental funds and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus on governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Castro County maintains two governmental fund types which are the general fund and special revenue funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds balance sheet for the general fund, the general road and bridge fund (special revenue fund), and individual road and bridge funds for each of the County's four precincts (also special revenue funds), which are all considered to be major funds. Data from the other non-major governmental funds (special revenue funds) are combined into the aggregated presentation. Individual fund data for each of these non-major governmental funds (special revenue funds) is provided in the form of combined statements elsewhere in this report.

The governmental fund financial statements can be found on pages 10 – 13 of this report.

Castro County adopts an annual appropriated budget for its general fund, road and bridge fund (special revenue fund), and various other special revenue funds. Budgetary comparison statements have been provided for the general fund and the County's various road and bridge funds to demonstrate the County's compliance with the budget on pages 39 – 45.

**Fiduciary funds.** Fiduciary funds are used to account for assets held by Castro County in a trustee capacity or as an agent for other governmental units. The County's fiduciary funds are all reported as Agency Funds. Agency funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's basic programs. The basic agency fund financial statement can be found on page 14 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found following the basic financial statements in this report.

**Other information.** The combining statements referred to earlier in connection with non-major governmental funds (special revenue funds) and agency funds are presented immediately following the required supplementary information. Combining statements can be found on pages 49 – 57 of this report.

## GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Castro County, assets exceeded liabilities by \$8,557,177 at September 30, 2021 as detailed below:

### Statement of Net Position - Governmental Activities

Unrestricted net position	<u>1,090,651</u>	<u>891,039</u>
Total net position	<u>\$ 8,557,177</u>	<u>\$ 7,422,515</u>

\$6,403,602 of Castro County's net position (75.02 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment) less any related debt used to acquire those assets that is outstanding. Castro County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although Castro County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The government's net position increased by \$1,134,662 during the year ended September 30, 2021 as noted below:

**FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS**

As noted earlier, Castro County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of Castro County's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing Castro County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of September 30, 2021, Castro County's governmental funds reported combined ending fund balances of \$2,794,102. Approximately 46.8 percent of this total amount or \$1,308,174 constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of the fund balance is either restricted for special revenue purposes or committed to special projects, \$1,426,164, or is nonspendable form (prepaid insurance) in the amount of \$59,764.

The general fund is the chief operating fund of the County. The unassigned fund balance at September 30, 2021 represents 44.65 percent of the total general fund expenditures.

**FUND BUDGETARY HIGHLIGHTS**

The original budget for the General Fund reflected a loss of \$156,178 which reduced fund balance. The final amended budget resulted in a loss of \$20,533. The actual expenditures were \$365,207 less than the final budgeted amounts, and the actual revenues and net transfers in were \$80,421 less than was budgeted resulting in a favorable variance of \$284,786.

In the Road and Bridge Funds (special revenue funds), the combined original budgets reflect a deficit of \$199,353 which drew upon fund balance. The final amended budgets resulted in a deficit of \$198,823. The combined actual expenditures were \$139,446 less than the final budgeted amounts, and combined actual revenues and net transfers were \$5,476 less than was budgeted resulting in a favorable variance of \$133,970.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

Capital Assets. Castro County’s investment in capital assets for its governmental activities as of September 30, 2021, amounts to \$11,088,158 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, furniture and equipment. The County follows guidance from the Governmental Accounting Standards Board (“GASB”) for accounting for and reporting of infrastructure assets (roads and bridges). Consequently, the County does not currently have any infrastructure assets that are required to be included on the government wide financial statements.

Governmental activities capital assets were as follows:

**GOVERNMENTAL ACTIVITIES (NET OF DEPRECIATION)**

	<u>9/30/2021</u>	<u>9/30/2020</u>
Land	\$ 59,771	\$ 59,771
Buildings and improvements	9,111,013	9,342,221
Equipment	<u>1,917,374</u>	<u>2,142,213</u>
Total	<u>\$ 11,088,158</u>	<u>\$ 11,544,205</u>

Additional information on Castro County’s capital assets can be found in Note 4 of this report.

**CAPITAL LEASES PAYABLE**

Capital Leases Payable. During the year ended September 30, 2021 Castro County had \$484,556 in capital lease payables.

**ECONOMIC FACTORS AND NEXT YEAR’S BUDGET AND RATES**

- The agriculture economy in the region is stable.
- The County promotes and encourages economic development to improve the economy.
- Castro County’s goal is to improve the quality of life of all its citizens.

All of these factors were considered in preparing Castro County’s budget for the 2022 fiscal year.

**Requests for Information**

This financial report is designed to provide a general overview of Castro County’s finances for those with an interest in the government’s finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the County Financial Administrator, Castro County Courthouse, 100 E. Bedford, Dimmitt, TX 79027.

**CASTRO COUNTY, TEXAS**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of Castro County, Texas (County) have been prepared in conformity with accounting principles generally accepted in the United States of America (generally accepted accounting principles)(GAAP) for local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant accounting and reporting policies of the County are described in the following notes to the financial statements.

**A. Financial Reporting Entity**

The County, incorporated in 1876, is a public corporation and political subdivision of the State of Texas. The County is governed by the Commissioners Court, composed of four County Commissioners and the County Judge, all of whom are elected officials.

The County provides a variety of services to advance the welfare, morale, comfort, safety and convenience of the County and its citizens.

The definition of the reporting entity is based primarily on the notion of financial accountability. The elected officials governing the County are accountable to their constituents for their public policy decisions, regardless of whether those decisions are carried out directly through the operations of the County or by their appointees through the operations of a separate entity. Therefore, the County is not only financially accountable for the organizations that make up its legal entity, but also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either, it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on the County.

**B. Financial Statement Presentation, Measurement Focus and Basis of Accounting**

Government-Wide Statements

Government-wide financial statements consist of the Statement of Net Position and the Statement of Activities. These statements report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenue, are reported separately from *Business-type activities*, which rely to a significant extent on fees and charges for support. The County has no Business-type activities.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Under this measurement focus, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of cash flows. Property taxes are recognized as revenues in the year for which they are levied. Fines and forfeitures are recognized when they have been assessed and adjudicated and earned. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation**

**B. Financial Statement Presentation, Measurement Focus and Basis of Accounting – Continuation**

Government-Wide Statements – Continuation

The Statement of Activities demonstrates the degree to which the direct expenses of the County’s programs are offset by those programs’ revenue. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Certain indirect costs have been included as part of the program expenses reported for the various functional activities. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by the program and 2) grants and contributions that are restricted to meeting the operational and/or capital requirements of a particular program. Taxes and other items not included among program revenue are reported instead as *general revenue*. In miscellaneous general revenues are non-program specific contributions including capital assets contributions.

Fiduciary funds are excluded in the government-wide presentation of the financial statements.

Fund-Level Statements

All governmental funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The County considers property taxes and other revenues as available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred. Grant and entitlement revenues are also susceptible to accrual. These funds are accounted for on a spending “financial flow” measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of “available spendable resources.” Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

Any proprietary funds, including internal service and fiduciary funds, including agency funds, are accounted for using the accrual basis of accounting. Revenues are recognized when earned, and expenses when they are incurred. Claims incurred but not reported are included in payables and expenses. These funds are accounted for using an economic resources measurement focus.

The accounts of the County are organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. Government resources are allocated to and accounted for in individual funds based on the purpose for which they are to be spent and the means by which spending activities are controlled.

The County reports the following major governmental funds:

The **General Fund** is the general operating fund of the County. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. Major revenue sources include property taxes, charges for services, intergovernmental revenues and investment of idle funds. Primary expenditures are for administrative, judicial, public facilities, public safety, public services, and capital acquisition.

Fund-Level Statements – Continuation

The **Combined Road and Bridge Fund** is a special revenue fund used to account for the revenues derived from property taxes and license fees levied for purposes of road and bridge expenditures.

The **Debt Service Fund** accounts for the accumulation and disbursement of resources associated with the County's debt obligations. Property taxes and interest income provide the resources necessary to pay the annual principal and interest payments.

The **American Relief Fund** is used to account for funds received through various federal agencies passed through the State of Texas. The pass through grant is to be used to reimburse the County for qualified incurred costs and lost revenue related to the COVID-19 pandemic.

Additionally, the County reports the following fund types:

The **Special Revenue Funds** account for the proceeds of specific revenue sources (other than fiduciary funds) that are legally restricted to expenditures for specified purposes.

The **Agency Funds** are used to account for assets held by the County as an agent for individuals, private organizations, other governments and other funds. Agency funds do not involve a formal trust agreement. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

**C. Use of Estimates**

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**D. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity**

**1. Deposits and Investments**

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Statutes authorize the County to keep funds in demand deposits, time deposits, or securities of the United States. The County's custodial banks are required to pledge for the purpose of securing County funds, securities of the following kind, in an amount equal to the amount of such County funds: bonds and notes of the United States, securities of indebtedness of the United States, bonds of the State of Texas, or of any county, city, or independent school district, and various other bonds as described in Texas Statutes.

The County is required by Government Code Chapter 2256, The Public Funds Investment Act ("Act"), to adopt, and publicize an investment policy. That policy must be written, primarily emphasize safety of principal and liquidity, address investment diversification, yield, and maturity and the quality and capability of investment management, and include a list of the types of authorized investments in which the investing entity's funds may be invested, and the maximum allowable stated maturity of any individual investment owned by the entity.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continuation**

**D. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity – Continuation**

**1. Deposits and Investments – Continuation**

The Act requires an annual audit of investment policies. Audit procedures in this area, conducted as a part of the audit of the basic financial statements, disclosed that in the area of investment practices, management has established and reports appropriate policies. The County adheres to the requirements of the Act. Additionally, investment practices of the County are in accordance with local polices.

**2. Receivables and Payables**

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of inter-fund loans) or “advances to/from other funds” (i.e., the noncurrent portion of inter-fund loans). All other outstanding balances between funds are reported as “due to/from other funds.”

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Accounts receivable from other governments include amounts due from grantors for approved grants for specific programs and reimbursements for services performed by the County. Program grants are recorded as receivables revenues at the time all eligibility requirements established by the provider have been met.

Reimbursements for services performed are recorded as receivables and revenues when they are earned in the government-wide statements. Included are fines and costs assessed by court action and billable services for certain contracts. Revenues received in advance of the costs being incurred are recorded as unavailable revenue in the fund statements. Receivables are shown net of an allowance for uncollectible accounts of \$3,117,343.

Payables consist of vendor obligations for goods and services as well as funds payable to others when the criteria for their release have been met.

**3. Property Tax Calendar and Revenues**

Property taxes are based on taxable value at January 1 and become due October 1 and past due after January 31 of the following year unless the half payment option is elected in which one-half the tax is due November 30, and the balance the following June 30. Tax collections between October and December are considered early and are entitled to discounts. Tax collections after February 1 are treated as late payments and are subject to penalty and interest. Uncollected taxes from the current tax roll become delinquent on July 1 and are subject to additional penalties and interest. Accordingly, receivables and revenues for property taxes are reflected on the government-wide statement based on the full accrual method of accounting. Property tax receivables for prior years’ levies are shown net of an allowance for uncollectible accounts of \$289,862.

**4. Restricted Assets/Funds**

The following accounts reflect restricted status by third-party or statutory obligations for specific purposes:

- Other Non-Major Governmental fund balances (amounts restricted for other specific purposes such as management, preservation, and retention of public records, personnel and security for the courthouse, technology requirements for the justice court, administration of pre-trial diversion programs, defraying the County’s voter registration expenses, continuing education costs, enhancement of law enforcement operations with seized and forfeited funds, supplementing salaries, holding and disbursing unclaimed funds to the State Comptroller, maintenance of the County’s Law Library, and enhancement of the County Attorney’s operations with fees from processing dishonored and forged checks. All restrictions are enacted according to Texas statutes.)
- In addition to the statutory restrictions the County has also received grant awards from various State and Federal agencies. These awards are all restricted for the stated purposes of the grant.
- The County has also received donations from outside donors. Those donations are restricted for the for the enhancement of Centennial Plaza, the Rhoads Memorial Library, and the maintenance of the tip-based hotline operated out of the Sheriff’s Department.

**5. Prepaid Items**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The County uses the consumption method to record its prepaid items which requires reporting these items as assets and deferring the recognition of expenditures until the period in which prepaid items are used or consumed. In the fund financial statements, they are offset by a designation of non-spendable fund balance which indicates they do not represent “available spendable resources”.

**6. Capital Assets**

Capital assets, which include buildings and improvements, and vehicles and equipment, are reported in the government-wide financial statements. The County has opted to not retroactively report infrastructure assets. According to the County’s capitalization policy, capital assets, such as equipment, are defined as individual assets (or systems of assets) having a cost of \$5,000 or more and an estimated useful life in excess of one year. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

When capital assets are purchased, they are capitalized and depreciated in the government-wide financial statements. Capital assets are recorded as expenditures of the current period in the governmental fund financial statements.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Capital assets are depreciated using the straight-line method over the following estimated lives:

Buildings and improvements	5 - 40 years
Vehicles and equipment	5 - 20 years

**7. Compensated Absences**

A liability for unused vacation and comp time for all full-time employees is calculated and reported in the government-wide financial statements. For financial reporting, the following criteria must be met to be considered as compensated absences:

- leave or compensation is attributable to services already rendered
- leave or compensation is not contingent on a specific event (such as illness).

Per GASB Interpretation No. 6, liabilities for compensated absences are recognized in the fund statements to the extent the liabilities have matured (i.e. are due for payment). Compensated absences are accrued in the government-wide statements.

Regular full-time employees are entitled to vacation of one to three weeks (depending upon years of service and employee classification) per year as earned. Vacation time earned, but not taken, is paid upon termination, but cannot be accumulated beyond what would be earned in one year plus one week. Compensation time is accrued at one and one-half the employee's regular rate for each hour worked over forty hours in a work week. After it is accrued, it is treated like vacation time earned and is paid upon termination. Sick leave accrues at 6.66 hours per month; however, unused sick leave is not paid upon termination. Accrued vacation leave and comp time are accrued in the government-wide financial statements.

**8. Long-term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. On the bond issues, bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed in the year they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**9. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow or resources (expense/expenditure) until then. The government has multiple items that qualify for reporting in this category. They are the contributions, losses, and assumption changes related to the County's pension plan reported in the government-wide statement of net position.

**D. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity – Continuation**

**9. Deferred Outflows/Inflows of Resources – Continuation**

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has several items that qualify for reporting in this category. One item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The other item, *pension economic/demographic gains* is related to the changes in the County's net pension liability and is reported in the government-wide statement of net position.

**10. Pensions**

For purposes of measuring the net pension asset or liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's Texas County and District Retirement System Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**11. Fund Balances**

As prescribed by GASB Statement No. 54, governmental funds report fund balance in classifications based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. Fund balance for governmental funds can consist of the following:

**Non-spendable Fund Balance** – includes amounts that are (a) not in spendable forms, or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long-term notes receivable.

**Restricted Fund Balance** – includes amounts that are restricted for specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of the resource providers.

**Committed Fund Balance** – includes amounts that can only be used for the specific purposes determined by a formal action of the County's highest level of decision-making authority, the Commissioners' Court. Commitments may be changed or lifted only by the County taking the same formal action that imposed the constraint originally (for example: resolution or ordinance).

**Assigned Fund Balance** – includes amounts intended to be used by the County for specific purposes that are neither restricted nor committed. Intent is expressed by (a) Commissioners' Court or (b) a body (budget, finance committee, or County Official) to which the assigned amounts are to be used for specific purposes. Assigned amounts also include all residual amounts in governmental funds (except negative amounts) that are not classified as non-spendable, restricted or committed.

**D. Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity – Continuation**

**11. Fund Balances – Continuation**

**Unassigned Fund Balance** – this classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

**12. Net Position**

In the government-wide financial statements, equity is classified as net position and displayed in three categories.

**Net Investment in Capital Assets** – This amount consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds.

**Restricted Net Position** – This amount is restricted by external creditors, grantors, contributors, laws or regulations of other governments, enabling legislation, or constitutional provisions.

**Unrestricted Net Position** – This amount includes all net position amounts that do not meet the definition of “net investment in capital assets” or “restricted net position.”

**13. Fund Balance Policies**

When the County incurs an expenditure for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first, then unrestricted funds. When expenditures are incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Committed fund balance amounts may be used for other purposes with appropriate action by the Commissioners’ Court to either modify or rescind a fund balance commitment. Commitments are typically done through adoption and amendment of the budget.

The County’s highest level of decision-making authority is the Commissioners’ Court. The Court has not yet delegated the authority to assign fund balance amounts to a specific individual nor does it have a policy to authorize the assignment of fund balances outside the Court.

**NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

**A. Budgetary Information**

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to September 1, the proposed budget is submitted to the Commissioners' Court.
2. The Commissioners' Court provides for a public hearing on the County budget subsequent to August 15, and prior to the levy of taxes by the Commissioners' Court.

**A. Budgetary Information – Continuation**

3. Prior to October 1, the budget is legally adopted by order of the Commissioners' Court for the General Fund and the Road and Bridge Funds.
4. The budget is prepared by fund and department with the legal level of control at the department level. Administrative control is maintained through the establishment of more detailed account or object class budgets within the departments. Emergency expenditures to meet unusual and unforeseen conditions which could not, by reasonable diligent thought and attention, have been included in the original budget, whereby total expenditures of a department have been increased must be authorized by the Court as emergency amendments to the original budget. Management may not amend the budget at any level without approval of the Commissioners' Court. The Court has the authority to make such changes in the budget, in its judgment of facts, the law warrant, and the interest of the taxpayers demand, provided the amounts budgeted for the current expenditures from the various funds for the County do not exceed appropriations, including fund balances from the prior fiscal periods. Amounts shown in the financial statements represent the original budget amounts and all supplemental appropriations. Supplemental appropriations to the original adopted budget are in the Final Budget Amounts column of the Budgetary Comparison Schedule for the General Fund and the Road and Bridge Funds.
5. Budgets for the General and the Road and Bridge Special Revenue Funds are adopted on a basis consistent with GAAP on the modified accrual basis of accounting on an annual basis.
6. Formal budgetary integration on an annual basis is employed as a management control device during the year for the General Fund and the Road and Bridge Funds.
7. All appropriations, except those in grant funds, lapse at the end of the County's fiscal year and may be re-budgeted the next year.

**B. Excess of Disbursements Over Appropriations**

For the year ended September 30, 2021, expenditures exceeded appropriations in the following departments, Road and Bridge, Precinct 4 Debt Service (Interest) (\$1,297). The over expenditure in the Road and Bridge Fund was funded by lower than anticipated expenditures in other line items within the department.

**C. Deficit Fund Balance**

The Road and Bridge, Precincts 2 and 4 Funds had deficit unassigned fund balances of \$53,510 and \$76,111, respectively. In the current year the funds incurred expenditures in excess of the collected revenues. The County plans on covering the deficits in Precincts 2 and 4 with subsequent collections.

**NOTE 3 – DEPOSITS AND INVESTMENTS**

Following is a reconciliation of the County’s cash and deposit balances as of September 30, 2021:

Cash and deposit balances consist of:

Cash on hand	\$ 1,100
Bank deposits	1,429,277
	1,430,377
Total	\$ 1,430,377

Cash and deposit balances are reported in the basic financial statements as follows:

Government-wide Statement of Net Position:

Unrestricted	\$ 1,209,855
Fiduciary Funds Statement of Net Position	220,522
	1,430,377
Total	\$ 1,430,377

As of September 30, 2021, the County had the following investments:

Investment Type	Fair Value	Weighted Average Maturity (Days)
Governmental activities		
Unrestricted		
Certificates of deposit (interest rates at 0.38% - .60%)	\$ 1,688,650	
Total fair value	\$ 1,688,650	
Portfolio weighted average maturity		330

**Custodial credit risk – deposits.** As of September 30, 2021, the carrying amount of the County's deposits with financial institutions was \$3,117,927 and the bank's balance was \$3,165,372. Of the bank balance, \$485,758 was insured through the Federal Depository Insurance Corporation (FDIC) and the remaining \$2,679,614 was collateralized with securities held by the pledging institution’s agent in the County’s name.

**Interest rate risk** is the risk that adverse changes in interest rates will result in an adverse effect on the fair value of an investment. The County manages its exposure to interest rate risk by maintaining its cash in interest-bearing demand accounts, or in certificates of deposit with weighted average maturities of one year or less.

**Credit risk** is the risk that an insurer or other counterparty to an investment will not fulfill its obligations. State law and County policy limit investments in local government pools to those rated no lower than AAA or an equivalent rating by at least one nationally recognized rating service.

**Concentration of credit risk** is the risk of loss attributed to the magnitude of a government’s investment in a single insurer. As of September 30, 2021, 100% of the County’s carrying value of cash was deposited with the County’s depository banks and was adequately secured as described above.

**NOTE 5 – PROPERTY TAX**

The State of Texas Constitutional tax rate limit for both operations and debt service is \$0.80 on each \$100 of assessed valuation. The tax rate on the 2020 tax roll was \$0.477 per \$100, which means that the County has a tax margin of \$0.323 per \$100 and could raise up to \$1,715,950 additional revenue from the 2020 assessed valuation of \$531,254,020 before the limit is reached.

The State of Texas Constitutional tax rate limit for the maintenance of farm-to-market roads is \$0.30 on each \$100 of assessed valuation. The tax rate on the 2020 tax roll was \$0.118 per \$100, which means that the County has a tax margin of \$0.182 per \$100 and could raise up to \$962,905 additional revenue from the 2020 assessed valuation of \$529,068,630 before the limit is reached.

Real and personal property values are assessed for the period January 1 to December 31, as of January 1 at which date property taxes attach as an enforceable lien on property. Taxes are levied by October 1 of the current year and are collected from October 1 to June 30 of the following year. Payments received after February 1 are considered late and are subject to penalty and interest. Taxes become delinquent on July 1 of the following year.

**NOTE 6 – SALES TAX**

The County is entitled by provision of the State of Texas to a one-cent sales tax on all sales that occur within the County. The tax is assessed as a property tax reduction for the County to use as general revenues. This sales tax is remitted monthly by the Comptroller of the State of Texas.

**NOTE 7 – RETIREMENT PLAN**

**Plan Description:** Castro County provides retirement and death benefits for all of its employees, except temporary employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of 677 nontraditional defined benefit pension plans. TCDRS in the aggregate issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034 and is available at [www.tcdrs.org](http://www.tcdrs.org).

**Benefits Provided:** The plan provisions are adopted by the governing body of the County (employer), within the options available in the Texas state statutes governing TCDRS (TCDRS Act). Members can retire at ages 60 and above with 8 or more years of service, with 30 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after 8 years of service but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by the County.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the County within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

**Employees Covered by Benefit Terms:** At December 31, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	47
Inactive employees entitled to but not yet receiving benefits	70
Active employees	70

**Contributions:** The County has elected the annually determined contribution rate (ADCR) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the County based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the County is actuarially determined annually.

The County contributed using the actuarially determined rate of 11.25% for the months of the accounting year in 2020 and 10.69% for the months of the accounting year in 2021. The contribution rate payable by the employee members is 7.0% for fiscal year 2021 as adopted by the governing body of the County. The employee contribution rate and the employer contribution rate may be changed by the governing body of the County within the options available in the TCDRS Act.

**Net Pension Liability:** The County's net pension liability was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability or asset was determined by an actuarial valuation as of that date.

**Actuarial Assumptions:** The total pension liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

The actuarial assumptions that determined the total pension liability as of December 31, 2020 were based on the results of an actuarial experience study for the period January 1, 2013 – December 31, 2016, except where required to be different by GASB 68. The economic assumptions were reviewed at the March 2021 TCDRS Board of Trustees meeting and revised assumptions were adopted. These revisions included reductions in the investment return, wage growth, and maximum payroll growth assumptions. The assumptions are reviewed annually for continued compliance with the relevant actuarial standards of practice.

**NOTE 7 – RETIREMENT PLAN – Continuation**

**TCDRS system-wide economic assumptions:**

Real rate of return	5.00%
Inflation	2.50%
Long-term investment return	7.50%

The assumed long-term investment return of 7.5% is net after investment and administrative expenses. It is assumed returns will equal the nominal annual rate of 7.5% for calculating the actuarial accrued liability and the normal cost contribution rate for the retirement plan of each participating employer.

The annual salary increase rates assumed for individual members vary by length of service and by entry-age group. The annual rates consist of a general wage inflation component of 3.00% (made up of 2.50% inflation and 0.5% productivity increase assumptions) and a merit, promotion and longevity component that on average approximates 1.6% per year for a career employee.

**Employer-specific economic assumptions:**

Growth in membership	0.00%
Payroll growth for funding calculations	3.00%

The payroll growth assumption is for the aggregate covered payroll of an employer.

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown are based on January 2021 information for a 10-year time horizon.

Note that the valuation assumption for long-term expected return is re-assessed in detail at a minimum of every four years and is set based on a long-term time horizon. The TCDRS Board of Trustees adopted the current assumption at their March 2021 meeting. The assumption for the long-term expected return is reviewed annually for continued compliance with the relevant actuarial standards of practice. Milliman relies on the expertise of Cliffwater in this assessment.

**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**

**NOTE 7 – RETIREMENT PLAN** – Continuation

**Discount Rate:** The discount rate used to measure the total pension liability was 7.60%. The discount rate is the single rate of return that, when applied to all projected benefit payments results in an actuarial present value of projected benefit payments equal to the total of the following:

1. The actuarial present value of benefit payments projected to be made in future periods in which (a) the amount of the pension plan's fiduciary net position is projected to be greater than the benefit payments that are projected to be made in that period and (b) pension plan assets up to that point are expected to be invested using a strategy to achieve the long-term rate of return, calculated using the long-term expected rate of return on pension plan investments.
2. The actuarial present value of projected benefit payments not included in (1), calculated using the municipal bond rate.

Therefore, if plan investments in a given future year are greater than projected benefit payments in that year and are invested such that they are expected to earn the long-term rate of return, the discount rate applied to projected benefit payments in that year should be the long-term expected rate of return on plan investments. If future years exist where this is not the case, then an index rate reflecting the yield on a 20-year, tax-exempt municipal bond should be used to discount the projected benefit payments for those years.

The determination of a future date when plan investments are not sufficient to pay projected benefit payments is often referred to as a depletion date projection. A depletion date projection compares projections of the pension plan's fiduciary net position to projected benefit payments and aims to determine a future date, if one exists, when the fiduciary net position is projected to be less than projected benefit payments. If an evaluation of the sufficiency of the projected fiduciary net position compared to projected benefit payments can be made with sufficient reliability without performing a depletion date projection, alternative methods to determine sufficiency may be applied.

In order to determine the discount rate to be used by the employer we have used an alternative method to determine the sufficiency of the fiduciary net position in all future years. Our alternative method reflects the funding requirements under the employer's funding policy and the legal requirements under the TCDRS Act.

1. TCDRS has a funding policy where the Unfunded Actuarial Accrued Liability (UAAL) shall be amortized as a level percent of pay over 20-year closed layered periods.
2. Under the TCDRS Act, the employer is legally required to make the contribution specified in the funding policy.
3. The employer's assets are projected to exceed its accrued liabilities in 20 years or less. When this point is reached, the employer is still required to contribute at least the normal cost.
4. Any increased cost due to the adoption of a COLA is required to be funded over a period of 15 years, if applicable.

Based on the above, the projected fiduciary net position is determined to be sufficient compared to projected benefit payments. Based on the expected level of cash flows and investment returns to the system, the fiduciary net position as a percentage of total pension liability is projected to increase from its current level in future years.

Since the projected fiduciary net position is projected to be sufficient to pay projected benefit payments in all future years, the discount rate for purposes of calculating the total pension liability and net pension liability of the employer is equal to the long-term assumed rate of return on investments. This long-term assumed rate of return should be net of investment expenses, but gross of administrative expenses for GASB 68 purposes. Therefore, we have used a discount rate of 7.60%. This rate reflects the long-term assumed rate of return on assets for funding purposes of 7.50%, net of all expenses, increased by 0.10% to be gross of administrative expenses.

**NOTE 9 – TAX ABATEMENTS**

During the year ended September 30, 2013, Castro County entered into a 10 year property tax abatement agreement with a business under the Texas Property Redevelopment and Tax Abatement Act. Under the Act, localities may grant tax abatement of up to 100 percent of a business' property tax bill for the purpose of attracting or retaining business within the jurisdictions. The abatement may be granted to any business located within or promising to relocate to Castro County. To be eligible the Company agreed to construct improvements consisting of a wind power facility with a currently anticipated capacity of 306 megawatts of overall Turbine Nameplate Capacity. The Chief Appraiser will determine the certified appraised value annually pursuant to the terms of the abatement under this agreement. The amount of the abatement will automatically be deducted from the property owner's tax bill. In the event of default the County shall use the certified appraised values which were abated to determine the taxes due. In addition to the commitments for eligibility the Company has agreed to make payments in lieu of taxes annually in the amount of \$1,200 per megawatt of turbine nameplate capacity during the abatement period. This has not resulted in a payment to County as of September 30, 2021 as the Company has not presented a Certificate of Completed Construction to the County.

**PART III**  
**COMPLIANCE**

To The Honorable County Judge and  
Commissioners Comprising the  
Commissioners' Court of  
Castro County, Texas

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Castro County, Texas as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise Castro County, Texas's basic financial statements and have issued our report thereon dated December 9, 2021.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Castro County, Texas's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Castro County, Texas's internal control. Accordingly, we do not express an opinion on the effectiveness of Castro County, Texas's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Castro County, Texas's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
